Today was the last day of the training camp. I played my first round of golf yesterday, and while I was super nervous I'm really glad I played to the end. It was a lot of fun, and I think it would be great if we can all tackle another course someday. All the muscles in my body hurt this morning, which was quite troublesome...The food at the hotel was delicious, and as a result I've been eating way too much since the morning haha.

The very last thing we did at the camp was go swimming in the ocean. The ice cream we had at the beach was particularly yummy. I want to grow taller so that Haruka-san will stop treating me like a little kid.

Everyone in the golf club promised to get together at the driving range while we're still on summer break, so I'm going to work hard and get better at golf.

Excellent job on taking part in the two day training camp! Higuchi-san, it was remarkable you made it all the way to the end of the course.
Use what your learned out on the course and keep on practicing!

Keep it up!

This was the golf club's first training camp. I hit the ball lots and had tons of fun! I think it would be good for sensei to study up on how to drive!

It's great that everyone had fun at the first training camp! Okamoto-san, you sure hit the ball quite far even though you just started golfing! Just as the rumours say, your athletic ability is quite astounding!

...is sensei really that bad at driving? Even though I really like doing it...(*_*) Remember, I'll always be there for you guys if you need a ride again.

Keep in mind that you're still too young to drive a golf cart Okamoto-san!
